

Dear Farm Friends,

It's definitely spring here at Mountain Bounty Farm! The cover crop is lush, the air is warming, the mud is everywhere, and our greenhouses are overflowing. In fact all three of our greenhouses are bursting with baby plants that are just waiting for me to get over my head cold and help them into the ground!

Fortunately, our new crop of interns arrived Monday to help us kick our planting into high gear.

We've actually already started planting into the fields (slowly, since it's been a little wet lately), and we're looking forward to seeing the little peas, carrots, beets, chard, and Asian greens start to emerge. We're excited to start transplanting onions, broccoli, and even tomatoes with our new intern crew soon.

We've also been really happy to see your sign-up forms rolling into our office for the summer season. It's shaping up to be a great year, so thank you to those of you who have already sent in your checks. If you haven't sent yours in yet, it's not too late. We still have space available, but we do expect to sell out before the season starts so don't wait too long! The summer brochure and sign up form is on our website at www.MountainBountyFarm.com

This year, we'll be partnering with Filaki Farm again to provide a weekly fruit share, which we've expanded to include apricots, apples, cherries, nectarines, peaches, pears, plums, table grapes and more. The fruit shares average 6+ pounds per week and vary with the season. This tree-ripened fruit has real flavor and character-it is fruit that you will rarely, if ever, find in the store!

If you have any questions about the summer share, please call us at 292-3776. Thanks everyone, and happy spring!

Your Farmer,
John Tecklin
